

RAMANATH SHANBHAG

Bangalore, India | +91 98807 40103 | ramvinnu@hotmail.com | www.linkedin.com/in/ramanaths/

ERICSSON | MICROSOFT | MINDTREE | HPE | ADITI TECHNOLOGIES | FOUNDER & ENTREPRENEUR

Ramanath Shanbhag is a seasoned senior leader with extensive global experience spanning both product and services organizations across multiple industries, including Telecom, Technology, BFSI, Manufacturing, Retail and Media. He has successfully built organizations from the ground up, including founding and scaling a startup, and has led large, high-performing teams of over 1,000 professionals. Among his recent achievements is the 1B SEK yearly savings through Automation, AI/ML and Rebadging.

From 2020-2024, he served as the Bangalore Location Head for Cloud & Software Services at Ericsson, where he drove business continuity, operational excellence, and organizational transformation.

His curated leadership development programs and indigenously designed Quality Management System (QMS) have significantly improved delivery standardization, predictability, and quality across engagements. He has championed many AI/ML, Low-Code/No-Code, Intelligent Automation, and Cloud-native solutions including QMS, Fault Analysis Agent, and Automated Testcase Generation.

Ramanath has received multiple accolades, including the prestigious President's Award (Key Contributor @ Ericsson) in 2021 & 2023. He has presented whitepapers at international forums and published articles in leading industry magazines.

AWARDS & REWARDS

- Key Contributor Award in 2021 & 2023
- Invited to: HP Discover 2012, IBM Software Executive Summit 2011, Google Test Automation Conference 2010, and Selenium Day @ 1.21GWS, 2020 as Key Note Speaker
- Presented Whitepapers: STARWEST, Google Test Automation, QAI, Silicon India STC and STeP IN Conferences. Published articles in leading magazines and written several blogs mentioned below

"I'm pleased to inform you that you've been identified as a Key Contributor for Ericsson. You're receiving this recognition because of your potential to drive our long-term strategic priorities, for being a role model and inspiration to others, always acting with integrity and living our values and Five Focus Areas.",
Börje Ekholm, President & CEO

SKILLS

- Strategy, Planning & Execution (JIRA, Confluence)
- Telecommunication (BSS, OSS, Core, Cloud)
- Solutioning, CoE Setup & Consultation Services
- AI/ML, Low-Code/No-Code, Intelligent Automation, and Cloud-native solutions
- Test Automation (Python, Robot, Selenium)

EDUCATION

Bachelor of Engineering in Computer Science (Nov, 1997) from K.L.E. College of Engineering & Technology

- Distinction throughout, GPA: 3.2 (81%)
- Won the Inter-college competition for the "Best Academic Project" on Image Processing

"Under his leadership, Mindtree has become a leader in Test Automation, Performance Testing and Cloud Testing. He is known for his passion about Testing and has published many technical papers in leading conferences and journals",
Krishnakumar Natarajan, x-Chairman, LTI Mindtree Ltd.

WORK EXPERIENCE

Head - Test Delivery & Practice | Ericsson | Bangalore, India

April 2017 – Present

- Strong execution skills across all Market Areas – driving modernization, large-scale migration, and automation led deliveries (across B/OSS, Packet Core, Cloud and Network Management).
- Responsible for Test Delivery (strategy, planning & execution), COE (Automation, Performance & Security), Service Readiness, Competence development, Vendor & Alliance management and Pre-sales & Solutioning activities. 50% of the HC are ISTQB certified.
- AI/ML Solutions: Test Recommender & Failure Analysis (FA) tool

Founder & CTO | Tesific (now Clarion Technologies) | Bangalore, India

December 2015 – March 2017

- Setting up the company from grounds-up, hiring, onboarding, shortlisting prospective clients, client presentations, pre-sales, incubating projects, delivery management, handling P&L and VC management.
- We reached break-even in 6 months. We grew mostly indigenously offering digital services in testing and test development to hi-tech companies.
- Handling P&L and VC Management.

General Manager | LTI Mindtree Ltd. | Bangalore, India

November 2004 – November 2015

- Managed deliveries for Technology, Retail, BFSI, Telecom, Transport, Travel, Manufacturing & Media.
- 50% revenue growth (YoY) in a 3000+ people practice. Managed P&L of 40 MUSD.
- Workshops conducted for strategic / premium clients enabled better account mining
- Created award-winning indigenous solutions - Plug-n-Play automation framework using open-source software.
- Enterprise Alliance partnership with HP, Microsoft, IBM, CA, Tricentis, ConfirmIQ, and Perfecto Mobile.

Test Manager | Aditi Technologies. | Bellevue, WA, USA

April 2003 – November 2004

ADITI

- Test Manager for Microsoft Systems Architecture group.
- Published blueprints to establish a new level of agility for deploying Microsoft and partner solutions.
- Recruited over 50 engineers to become the preferred vendor to Microsoft

Software Engineer | Microsoft Corporation. | Redmond, WA, USA

May 1999 – February 2003

- Worked in MSN Messenger and Windows Sustenance Engineering groups.
- Messenger Client performance improved by 290%.
- MSN Protocol Evaluation for Windows Messenger. Developed utilities using C# / Python for protocol evaluation
- 100% automation of Subscription API for Alert Notification
- Completely automated the Windows Hotfix installation (using C and J-scripts)

Software Engineer | Accord Software & Systems. | Bangalore, India

August 1997 – January 1999

- AutoSensorLab: Developed a GPS simulation package Visual C++ environment.
- Developed an Interface for Transcriptionists using Windows SDK/C.
- Developed a Test Suite using C on HPUX. Created Test Cases (15000) for TurboSTORE/iX Suite.
